AHMED ABOBAKR

Frontend Developer | MERN Stack Developer

El Mansoura, Egypt • 01550662103 • ahmedabobakr2972004@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Frontend and MERN Stack Developer holding a Bachelor's degree in Computer Science from Mansoura University, with hands-on expertise in building scalable, full-stack web applications. Skilled in React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, and MongoDB. Experienced in engineering responsive user interfaces, securing RESTful APIs, implementing robust authentication & authorization mechanisms, enabling real-time communications, and developing interactive admin dashboards. Dedicated to clean, maintainable code and performance optimization.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Material UI, Context API, Zustand, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), Socket.io

Database: MongoDB, Mongoose ODM

Tools & Practices: Git, GitHub, Axios, Postman, Vercel Deployment, SEO Optimization

KEY PROJECTS

Clinic Management System | MERN Stack — Live Demo ↗

- Engineered a full-featured clinic management application supporting medical records, doctor scheduling, and appointment booking.
- Implemented Role-Based Access Control (RBAC), secure authentication protocols, conflict validation logic for bookings, and centralized error handling.

Zocial — Social Media Platform | MERN Stack — Live Demo ↗

- Built an interactive social platform featuring dynamic posts, nested comments, real-time messaging, image uploads, and instant notifications.
- Designed reusable modular React components and integrated secure JWT authentication alongside structured RESTful endpoints.

Premium Store — E-Commerce Platform | MERN Stack — Live Demo ↗

- Developed a comprehensive e-commerce app with advanced product filtering, category search, wishlist management, and secure checkout flow.
- Created a dedicated Admin Dashboard providing real-time controls for product catalogs, customer orders, discount coupons, and inventory tracking.

ChatYou — Real-Time Messaging Application | MERN Stack — Live Demo ↗

- Architected real-time one-to-one and group messaging infrastructure utilizing WebSockets (Socket.io).
- Integrated features including active online presence indicators, real-time typing status, read receipts, and media content sharing.

EDUCATION

Bachelor's Degree in Computer Science
Mansoura University
October 2022 – October 2026
